

Futu Announces Third Quarter 2022 Unaudited Financial Results

November 21, 2022

HONG KONG, Nov. 21, 2022 (GLOBE NEWSWIRE) -- Futu Holdings Limited ("Futu" or the "Company") (Nasdaq: FUTU), a leading tech-driven online brokerage and wealth management platform, today announced its unaudited financial results for the third quarter ended September 30, 2022.

Third Quarter 2022 Operational Highlights

- Total number of paying clients¹ increased 23.8% year-over-year to 1,444,955 as of September 30, 2022.
- Total number of registered clients² increased 21.4% year-over-year to 3,132,800 as of September 30, 2022.
- Total number of users³ increased 15.6 % year-over-year to 19.2 million as of September 30, 2022.
- Total client assets declined 12.8% year-over-year to HK\$369.6 billion as of September 30, 2022.
- Daily average client assets were HK\$416.5 billion in the third quarter of 2022, a decrease of 6.2% from the same period in 2021.
- Total trading volume in the third quarter of 2022 declined 19.7% year-over-year to HK\$1.1 trillion, in which trading volume for U.S. stocks was HK\$752.0 billion, trading volume for Hong Kong stocks was HK\$303.6 billion, and trading volume for stocks under the Stock Connect was HK\$26.2 billion.
- Daily average revenue trades (DARTs)⁴ in the third quarter of 2022 declined 22.3% year-over-year to 448,309.
- Margin financing and securities lending balance declined 6.5% year-over-year to HK\$29.6 billion as of September 30, 2022.

Third Quarter 2022 Financial Highlights

- Total revenues increased 12.4% year-over-year to HK\$1,945.6 million (US\$247.9 million).
- Total gross profit increased 18.0% year-over-year to HK\$1,727.5 million (US\$220.1 million).
- Net income increased 22.7% year-over-year to HK\$754.6 million (US\$96.1 million).
- Non-GAAP adjusted net income⁵ increased 24.8% year-over-year to HK\$806.1 million (US\$102.7 million).

Mr. Leaf Hua Li, Futu's Chairman and Chief Executive Officer, said, "Total paying clients grew by 58 thousand to 1.44 million, representing a 23.8% year-over-year growth. New paying clients in Singapore increased by about one-third sequentially as we launched online and offline marketing campaigns around low-risk mutual fund products and expanded client acquisition channels. Paying client growth in the U.S. remained robust as we iterated on online marketing and deepened our collaboration with KOLs. Client acquisition decelerated in Hong Kong due to sluggish equity market performance and limited traction of our promotion of silver bond. Although client growth trended down sequentially, we are encouraged to see that our paying clients were sticky as ever – quarterly paying client retention rate remained above 98% across all markets."

"Total client assets declined 12.8% year-over-year and 14.7% quarter-over-quarter to HK\$369.6 billion. The sequential decline was mainly due to lower market valuation on clients' stock holdings, partially offset by strong net asset inflow despite market volatility. In Singapore, total client assets increased by 11% quarter-over-quarter, attributable to asset inflow across cohorts and higher-quality new clients. Margin financing and securities lending balance increased by 2.3% sequentially due to clients' bottom fishing of Chinese technology stocks."

"Equity market plunge led to a 19.5% quarter-over-quarter decline of total trading volume to HK\$1.1 trillion. Hong Kong stock trading volume declined 28.3% to HK\$303.6 billion amid deteriorating market sentiments across all sectors. U.S. stock trading volume was HK\$752.0 billion, down 16.2% quarter-over-quarter. The decline was mainly due to lower trading turnover of technology names, partially offset by strong trading interests in leveraged and inverse ETFs."

"Total client assets in wealth management reached HK\$26.0 billion, representing a 46.7% growth year-over-year and 18.7% growth quarterover-quarter. In Singapore, wealth management asset balance grew five-fold sequentially as we further expanded fund offerings and upgraded product features. We launched SmartSave in Singapore that allows our clients to automatically subscribe for and redeem SGD- and USD-denominated money market funds, whose returns have become increasingly attractive amid interest rate hikes. Client assets in private funds increased by 67% sequentially as we onboarded a cash management product that offers attractive yield and liquidity for professional investors. As of guarter end, 17% of our paying clients held wealth management positions, up from 15% in the previous guarter."

"Our enterprise business had 301 IPO and IR clients as well as 572 ESOP clients as of quarter end, up 40.0% and 76.0% year-over-year. More than 50 companies adopted our ESOP services during the quarter, including *Ganfeng Lithium* and *MicroPort*."

Third Quarter 2022 Financial Results

Revenues

Total revenues were HK\$1,945.6 million (US\$247.9 million), an increase of 12.4% from HK\$1,731.1 million in the third quarter of 2021.

Brokerage commission and handling charge income was HK\$957.8 million (US\$122.0 million), an increase of 2.6% from the third quarter of 2021. The expansion of blended commission rate from 6.9bps to 8.8bps more than offset the year-over-year decrease in trading volume.

Interest income was HK\$880.8 million (US\$112.2 million), an increase of 39.4% from the third quarter of 2021. The increase was mainly driven by

higher interest income from bank deposits amid rate hikes despite lower margin financing income and IPO financing interest income.

Other income was HK\$107.0 million (US\$13.6 million), a decrease of 35.5% from the third quarter of 2021. The decrease was primarily attributable to lower IPO financing service charge income, enterprise public relations service charge income and currency exchange service income.

Costs

Total costs were HK\$218.1 million (US\$27.8 million), a decrease of 18.4% from HK\$267.2 million in the third quarter of 2021.

Brokerage commission and handling charge expenses were HK\$82.6 million (US\$10.5 million), a decrease of 34.2% from the third quarter of 2021. Brokerage commission expenses declined due to cost savings from our U.S. self-clearing business and lower trading volume.

Interest expenses were HK\$44.7 million (US\$5.7 million), a decrease of 39.8% from the third quarter of 2021. The decrease was due to lower margin financing interest expenses and lower expenses associated with our securities borrowing and lending business.

Processing and servicing costs were HK\$90.8 million (US\$11.6 million), an increase of 34.7% from the third quarter of 2021. The increase was primarily due to higher cloud service fees to support overseas market expansion.

Gross Profit

Total gross profit was HK\$1,727.5 million (US\$220.1 million), an increase of 18.0% from HK\$1,463.8 million in the third quarter of 2021. Gross margin was 88.8%, as compared to 84.6% in the third quarter of 2021.

Operating Expenses

Total operating expenses were HK\$761.2 million (US\$97.0 million), a decrease of 0.3% from HK\$763.8 million in the third guarter of 2021.

Research and development expenses were HK\$313.4 million (US\$39.9 million), an increase of 40.0% from the third quarter of 2021. This was primarily due to the increase in research and development headcount to build U.S. clearing capabilities and support new product offerings in existing and new markets.

Selling and marketing expenses were HK\$235.5 million (US\$30.0 million), a decrease of 41.6% from HK\$403.1 million in the third quarter of 2021. The decrease was mainly due to fewer net new paying clients in the quarter.

General and administrative expenses were HK\$212.3 million (US\$27.0 million), an increase of 55.2% from the third quarter of 2021. The increase was primarily due to an increase in general and administrative personnel.

Net Income

Net income increased by 22.7% to HK\$754.6 million (US\$96.1 million) from HK\$615.2 million in the third quarter of 2021. Net income margin for the third quarter of 2022 was 38.8%, compared with 35.5% in the year-ago quarter.

Non-GAAP adjusted net income increased by 24.8% to HK\$806.1million (US\$102.7 million) from the third quarter of 2021. Non-GAAP adjusted net income is defined as net income excluding share-based compensation expenses. For further information, see "Use of Non-GAAP Financial Measures" at the bottom of this press release.

Net Income per ADS

Basic net income per American Depositary Share ("ADS") was HK\$5.37 (US\$0.68), compared with HK\$4.00 in the third quarter of 2021. Diluted net income per ADS was HK\$5.30 (US\$0.68), compared with HK\$3.94 in the third quarter of 2021. Each ADS represents eight Class A ordinary shares.

About Futu Holdings Limited

Futu Holdings Limited (Nasdaq: FUTU) is an advanced technology company transforming the investing experience by offering a fully digitalized brokerage and wealth management platform. The Company primarily serves the emerging affluent population, pursuing a massive opportunity to facilitate a once-in-a-generation shift in the wealth management industry and build a digital gateway into broader financial services. The Company provides investing services through its proprietary digital platforms, *Futubull* and *moomoo*, each a highly integrated application accessible through any mobile device, tablet or desktop. The Company's primary fee-generating services include trade execution – which allows its clients to trade securities, such as stocks, ETFs, warrants, options and futures across different markets – as well as margin financing and securities lending. Futu has also embedded social media tools to create a network centered around its users and provide connectivity to users, investors, companies, analysts, media and key opinion leaders.

Use of Non-GAAP Financial Measures

In evaluating the business, the Company considers and uses non-GAAP adjusted net income, a non-GAAP measure, as a supplemental measure to review and assess its operating performance. The presentation of the non-GAAP financial measure is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. The Company defines non-GAAP adjusted net income as net income excluding share-based compensation expenses. The Company presents the non-GAAP financial measure because it is used by the management to evaluate the operating performance and formulate business plans. Non-GAAP adjusted net income enables the management to assess the Company's operating results without considering the impact of share-based compensation expenses, which are non-cash charges. The Company also believes that the use of the non-GAAP measure facilitates investors' assessment of its operating performance.

Non-GAAP adjusted net income is not defined under U.S. GAAP and is not presented in accordance with U.S. GAAP. This non-GAAP financial measure has limitations as analytical tools. One of the key limitations of using non-GAAP adjusted net income is that it does not reflect all items of expense that affect the Company's operations. Share-based compensation expenses have been and may continue to be incurred in the business and is not reflected in the presentation of non-GAAP adjusted net income. Further, the non-GAAP measure may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited.

The Company compensates for these limitations by reconciling the non-GAAP financial measure to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating the Company's performance.

For more information on this non-GAAP financial measure, please see the table captioned "Unaudited Reconciliations of Non-GAAP and GAAP Results" set forth at the end of this press release.
